

To whom it may concern,

Elliot Vagner has worked as an intern at CumminsHybrid in our Adelaide office for the past 6 months, February to July 2017, two days a week.

His work ethic and the material that he has delivered for us have consistently impressed me. Elliot has shown a wide variety of skills including graphic design, creativity and videography. He has worked on many projects for the company including creating storyboards, visuals, brand identity concepts, video mood-boards, company videos, photo shoot assistance and print material.

He was ready to tackle any work that we needed assistance with and always brought a positive energy to the office.

His commitment to producing exciting and creative work was shown throughout his internship and Elliot's vibrant attitude was a perfect fit with our team.

Elliot has shown great communication skills and he has been highly efficient in delivering material on time, at high quality.

If there are any questions you have about Elliot's time and his work here at CumminsHybrid, please feel free to contact me.

Yours sincerely,

CRAIG JACKSON

Creative Director
